DETAILED ACTION

1. This application has been examined. Claims 1-17 are pending. An informational disclosure document filed has not been considered. Copies included with the Image File Wrapper are unclear and clear copies have been ordered and will be considered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 3. Claim1-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Figure 8 of Sordello et al. Note the plurality of inlets 323 and the "city water" inlet which are shown to be disposed on different sides of the recreational vehicle relative to each other. The particular type of vehicle recited is deemed design choice and given no patentable weight. The "fluid system" of Sordello et al is readily usable on any of the recited vehicles.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
